Aesthetics and Occlusion: Back To The Future!

For all the advances our profession has made in materials science and digital technologies, it is losing the emphasis on which every dental restoration is conceived. According to Dr. Harold M. Shavell, "Morphology and Occlusion is the Common Denominator of All Dentistry." Every restoration placed has the potential to alter the occlusal relationship of the patients' dentition. Thus, understanding, visualizing, and reproducing proper dentate morphology, regardless of the material used... is the key to long-lasting dental restoration. In this lecture, Dr. Lowe will review in detail techniques to create direct, provisional, and definitive restorations that show how the principles of morphology and occlusion can be maintained using today's modern dental materials to produce "world class" dental restorations.

Dr. Robert A. Lowe graduated magna cum laude from Loyola University School of Dentistry in 1982 and was a Clinical Professor in Restorative Dentistry until its closure in 1993. He maintains a private practice in Charlotte, North Carolina, lectures internationally, and publishes on aesthetic and restorative dentistry. Dr. Lowe is a member of Catapult Elite Speakers Bureau and has Fellowships in the AGD, ICD, ADI, ACD, IADFE, and ASDA. In 2004, he received the Gordon Christensen Outstanding Lecturers Award, and in 2005, Diplomat status on the American Board of Esthetic Dentistry. Dr. Lowe can be reached at 704-450-3321 or at boblowedds@aol.com.

Ontario Academy of General Dentistry (Approval #219289)
 Academy of General Dentistry Approved PACE Program Provider. FAGD/
 MAGD Credit. Approval does not imply acceptance by a state or provincial
 board of dentistry or AGD endorsement. 01/01/2010 - 12/31/2021
