

THE MYTHS AND REALITIES OF THE LINK BETWEEN ORAL DISEASE & SYSTEMIC CONDITIONS

COURSE OUTLINE

This presentation will explore and explain in detail the interrelationships between systemic diseases and oral health. The link will be made between periodontal disease from the etiology and pathogenesis of the disease to the role of the host response and their impact on systemic health. Risk assessment will be covered in the context of the oral/systemic connection. The participant will become familiar with various systemic disorders and understand which conditions do and which don't interact with periodontal diseases. Learning how to discuss this new paradigm in everyday dental practice with patients will also be discussed.

LEARNING OUTCOMES:

At the end of the program, participants will:

- understand the pathogenesis and mechanisms of periodontal disease
- be familiar with the impact of periodontal disease on systemic conditions
- understand the interaction between systemic disorders on periodontal health
- recognize the relevancy of the oral/systemic link to your daily practice
- look to future trends for causal effect relationships between oral and systemic disease

DR. JIM GRISDALE, B.A., D.D.S., DIP. PROSTH., DIP. PERIO., M.R.C.D.(C)

Dr. Grisdale is a Board Certified Specialist in Periodontics and Prosthodontics with a part-time private practice in periodontics and implant dentistry in Vancouver, British Columbia. Dr. Grisdale received his undergraduate and graduate degrees from McGill University, as well as a post graduate degree in Restorative Dentistry and Prosthodontics. He then went on to the University of British Columbia where he received another postgraduate degree in Periodontics. Dr. Grisdale was formerly a full time assistant professor in the graduate residency program in periodontics at Loma Linda University in Loma Linda, California. Currently Dr. Grisdale is a sessional lecturer in the Department of Periodontics at Loma Linda University.

Dr. Grisdale received an Award of Merit for Restorative Dentistry. He lectures extensively in the United States, Canada, Southeast Asia and Europe. He is a mentor for Periodontic and Prosthodontic Study Clubs. Dr. Grisdale has published in the area of treatment for dentin sensitivity, implants, bone regeneration and soft tissue periodontal adhesives. He is an active participant in clinical research and the study of contemporary periodontal products. He is a member of several professional societies.

LOCATION & DATES

MARCH 1, 2019

Lakeshore Convention Centre
806 Southdown Rd.
Mississauga, ON

6 lecture hours. AGD Subject Code 730.

These courses are eligible for 6 core credits each.

Ontario AGD is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing dental education programs of this program provider are accepted by AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 06/01/2011 - 12/31/2021.

This core course is free for current AGD members, but registration is required to gain acceptance into the course. There will be no onsite registration and you will be turned away from the venue. There is limited attendance to the course. Your credit card will be taken and any cancellation within three weeks of the course will have a \$75 charge. AGD reserves the right to cancel or alter the course. The exact location of the course will be emailed within one month of the course. This is the only form of communication for the location of the course.
