# TIPS, TRICKS AND TECHNIQUES FOR THE ESTHETIC BASED GENERAL DENTIST

## COURSE DESCRIPTION

Dentistry now has a wide variety of new materials and technologies available to help dentist to provide better dentistry faster and more predictably. This fast paced program is designed to share many useful materials now available as well as the tips and techniques to add speed and predictability. Additionally, new technologies with are discussed with a focus on the practical application and integration of these technologies to increase profitability and patient satisfaction.

## COURSE OBJECTIVES

1. Overview of the importance of bleaching in an esthetic practice
2. Review of the current state of bonding agents
3. Discussion on materials and techniques using composite resin for Class II's, core build ups, and post and core restorations
4. Incorporation of the latest technologies into the practice work flow
5. Review of the potential of NoPrep veneers, with a discussion on the myths and the realities.
