UPDATE 2017: PRACTICAL DENTISTRY FOR THE GENERAL RESTORATIVE PRACTICE

COURSE DESCRIPTION

In today's ever-changing economic environment, the dentist must continue to provide a quality service to the patient, yet remain profitable. Consistent, predictable, clinical techniques to create quality aesthetic and functional dental restorations in a time efficient manner are of paramount importance for a healthy practice. Effective use of emerging technologies in dentistry will help to differentiate your practice in the marketplace. Chair time, is our most precious commodity, so profitability starts by working efficient and working smart.

In this technique filled seminar, Dr. Lowe will teach you the skills you need to refine your restorations to a level that will help you create consistent quality. New technologies and techniques will be discussed along with how implementation of these technologies can help the "bottom line" of your practice. A discussion regarding the latest dental materials and delivery modalities will help in treatment planning even the most difficult functional and aesthetically challenging cases.

Don't miss this technique-oriented seminar that is geared toward delivering useful clinical information that can be implemented in practice immediately having a positive impact on the "bottom line" of your practice!

ROBERT A. LOWE, DDS

FAGD, FICD, FADI, FACD

Diplomat, American Board Of Aesthetic Dentistry

Dr. Robert A. Lowe graduated magna cum laude from Loyola University School of Dentistry in 1982 and was an Assistant Professor in Operative Dentistry until its closure in 1993. Since January of 2000, Dr. Lowe has been in private practice in Charlotte, North Carolina.
