CELTRA PRESS: NEW GENERATION ZIRCONIA REINFORCED HIGH STRENGTH GLASS CERAMIC

COURSE DESCRIPTION

Dr. Barzilay will present the new generation of high strength glass ceramics zirconia Reinforced Lithium Silicate, and the unique capabilities of the new Celtra Press. It's ability to deliver natural opalescent and translucent restorations using the traditional pressing techniques will be reviewed and clinical cases will be highlighted. Participants in this lecture will understand how providing stable margins and tooth vitality can be combined with a chameleon effect that will enhance the clinical result.

COURSE OBJECTIVES

1. Understand the difference in pressable ceramic materials.
2. Understand when to use which pressable material and how to apply its characteristics to clinical situations.
3. Understand bonding vs. standard cementation protocols with pressable ceramics.

DR. IZCHAK BARZILAY

Ontario Academy of General Dentistry (Approval #219289)
