

MAGD Study Programs

Listed below are Mastership Study Programs for which information is currently available. Designed to provide a regular course of study leading to Mastership, some invite enrollment in isolated courses, and some require participation a year at a time or for the full program. In addition, most dental schools offer a wide range of participation courses and some offer special courses for AGD Fellows. You are encouraged to contact the schools in your area, and to check with your AGD state chapters to determine if there are other study programs or MAGD study clubs available to you.
