Advanced Periodontal and Implant Surgery: A Hands-on Cadaver Course

October 21–23, 2011

**This course is designed to help dentists
incorporate periodontal plastic surgery and
advanced implant surgery into their daily
practices.**

Course topics will include:

- Indications and contraindications for periodontal plastic surgery
- Implant esthetic treatment plan
- Periodontal plastic surgery - soft tissue grafting
- Ridge augmentation procedures
- Sandwich bone augmentation procedures
- Monocortical onlay grafting
- Sinus grafting procedures
- Soft tissue management around dental implants
- Use of tissue engineering to enhance clinical outcomes

**This course combines didactic lectures and
hands-on workshop with eggs and fresh cadaver
specimens to cover a broad range of advanced
periodontal/implant surgical techniques.**

\$4,995 CAD + 13% HST
