

# Dallas Academy of General Dentistry Presents:

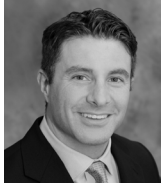

## March 8, 2012 • Dallas, Texas

### Creating Your Own Implant Supercenter

Presented by Dr. Paulino Castellon and Dr. Steven Sherry

Dr. Paulino Castellon received his dental degree from the University of Guadalajara, Guadalajara, Mexico, and attained his Certificate in Prosthodontics at the Louisiana State University School of Dentistry where he also completed a Fellowship in Aesthetic and Implant Dentistry. Dr. Castellon is Gratis Associate Professor at the Department of Prosthodontics at LSU School of Dentistry. He has authored several publications with a focus on implant dentistry. Dr. Castellon maintains a private practice limited to Prosthodontics in Dallas, Texas.

Dr. Steven D. Sherry is a board certified oral and maxillofacial surgeon. He received his D.D.S. from the State University of New York at Stony Brook. After earning his M.D. from The University of Texas Southwestern Medical Center, Dr. Sherry completed his general and oral and maxillofacial surgery training at Parkland Memorial Hospital. Dr. Sherry is a former adjunct professor in the Division of Oral and Maxillofacial Surgery at UT Southwestern Medical Center. Today, he is in private practice in Plano/Dallas, Texas.

#### Course Details

**Time:**

Course: 6:00 p.m. - 9:30 p.m.

*Dinner included*

**Location:**

Pappadeaux's  
18349 Dallas Parkway  
Dallas, TX 75287

**Credit:**

3 hours of lecture CE  
Subject Code: 690

#### About the Course:

Restoring the edentulous patient with an aesthetic reconstruction may present numerous challenges to the clinician. The patient's vertical dimension, centric relation, esthetics and phonetics need to be determined and maintained throughout the restorative process. With the advent of implants, there are various treatment options available to address the patient's esthetic and functional needs. Learn how to work as a team with your surgeon and lab to improve conversion of your big implant restoration cases.

#### Course Topics:

- We will present a classification of an edentulous maxilla based on the level of resorption.
- Discuss diagnosis and treatment planning for each classification as well as treatment options.
- Treatment options, prosthesis designs with treatment sequence, advances in technology, and step by step approach to provide a predictable outcome will be presented.
- Fixed crown and bridge with dental implants, hybrids, and removable with implants will be presented.
