Friday, April 13 • 8:00 am - 12:00 pm

4 hours lecture credit • AGD Code: 130

Full, hot breakfast included at 7:00 a.m.

With the recent popularity of all the television shows on forensic science, forensic odontology has become a popular subject with dental health care professionals. This course will cover briefly all aspects of forensic odontology including dental identification, standard of care, bite-mark analysis, recognition of human abuse, the dentist's role in mass disasters, and the dentist's/ hygienists critical role in maintaining accurate records to be used as evidence in legal proceedings. The CSI effect will be discussed in an attempt to separate fact from fiction of what one sees on television as to what is reality in the world of forensics. **WARNING: Due to the nature of this subject, caution is advised if graphic scenes of homicidal violence are offensive or disturbing to those wishing to participate.**

Hotel Information: Hotels rooms are available at the Holiday Inn for \$89.99 plus tax a night. Please call 915-833-2900 ext. 680 to make your reservation.

Friday, April 13
