

Education

The following programs have been funded by the AGD Foundation as the result of contributions from the AGD Foundation's Corporate Partners. By funding accessible educational programs, the AGD Foundation is making high-quality continuing education possible for thousands of dentists through regional and national workshops, the internet, and AGD publications.

Dentist's Advantage created a manual for dental students to guide them through the transition from student to practitioner. This practical guide will be available for distribution in 2007 and provides practical information and tips drawn from the real-life experiences of AGD members.

GlaxoSmithKline produced an educational symposium to address etiology, prevalence diagnosis, and clinical management of xerostomia/dry mouth and tooth wear/erosion. The symposium was held in conjunction with the AGD 2006 Annual Meeting in Denver, in addition to two regional education events on the same topic.

GC America is offering Web-based continuing education without charge to AGD members.

Hufford Financial is offering financial planning courses beginning in 2007.

Nobel Biocare and **Perio Institute** provided 10 two-day, hands-on implement placement workshops that were conducted regionally throughout North America and offered a discount fee to AGD members.

OraPharma produced online education on topics related to periodontal disease.

Procter & Gamble presented education at the regional level on a broad array of timely topics presented by industry-recognized speakers.

Dentist's Advantage and **GlaxoSmithKline** Consumer Healthcare

Robert E. Roesch, DDS, MAGD Fremont, Neb.

John Nick Russo, DDS, FAGD Wilmington, Del.

Working Together... We Can Make a Difference

The AGD Foundation is proud of its tradition as an integral part of the AGD. The AGD Foundation works hard to further the goals of the AGD and the people it serves. Charitable support from members and corporations enables the AGD Foundation to help fund programs that make dental care available to underserved populations and to support educational programs that enhance the general dentist's ability to provide optimal oral health care to the public. We thank the following for their generous support.

Working Together... We Can Make a Difference

The Academy of General Dentistry (AGD) Foundation has grown and changed since its founding in 1972. It continues to grow and change in response to the needs of the AGD membership and general dentistry. Our successful Capital Campaign, "Fostering a Brighter Tomorrow," was inaugurated in 2004, but the impact of that success is still working for AGD members. The educational seminars and symposia at the national and regional levels, online continuing education (CE) programs, a student manual, scholarly articles, and various member discounts continue to provide benefits for AGD members long after the campaign has concluded.

In the two years since the Capital Campaign, the AGD Foundation has made progress in new areas.

In 2005, the AGD Foundation addressed the heartbreaking aftermath of Hurricanes Katrina and Rita by establishing the Hurricane Relief Fund, which raised nearly \$80,000 from individual members and from AGD constituent societies. The funds were used to provide grants to AGD members in Louisiana and Mississippi and the Louisiana State University School of Dentistry. Together, the AGD Foundation and AGD membership reached out to help our AGD friends and colleagues when they needed us the most.

In 2006, the AGD Foundation undertook another initiative with Special Olympics Special Smiles (SOSS) in support of Special Olympics' mission to empower people with intellectual disabilities. The AGD Foundation continues its support by encouraging AGD members to include their names in the SOSS online directory of providers.

As we continue to move the AGD Foundation forward, we'll be undertaking more projects and programs that further the goals and ideals of the AGD and the people it serves. But none of our projects—past, present, or future—would be possible without the generosity and commitment from the AGD membership and the AGD community. On behalf of all of us on the AGD Foundation Board of Directors, thank you for your support. You can be proud that, together, we've made—and will continue to make—a difference.

Julie Ann Barna, DDS, MAGD

Julie Ann Barna, DDS, MAGD
PRESIDENT
AGD Foundation

Assistance and Support Hurricane Relief

In response to the extensive damage inflicted by Hurricanes Katrina and Rita and in order to help AGD members affected by the storm, the AGD Foundation established a Katrina Relief Fund. Through individual contributions and generous financial support from AGD constituent societies, nearly \$80,000 was raised. Every dollar of the funds received went to provide monetary grants to dentists in Louisiana and Mississippi who incurred direct losses and to support the Louisiana State University School of Dentistry as it transitioned to its Baton Rouge campus.

Access to Care

In its continuing mission to empower people with intellectual disabilities to reach their full potential, the AGD Foundation partnered with Special Olympics to help identify providers for primary dental care for Special Olympics athletes through Special Olympics Special Smiles (SOSS). The SOSS program is part of Special Olympics Healthy Athletes, which works to improve the quality of life for athletes.

Special Olympics and the AGD Foundation work together to improve the health and access to health care for Special Olympics athletes and the broader population of individuals with intellectual disabilities. AGD members were asked to indicate their willingness and their ability to provide health care services for persons with intellectual disabilities by signing up for the Special Olympics Provider Directory. AGD members were not asked to provide the services at no cost to the athlete but were merely asked to indicate that they would be listed as a potential provider of dental services. The general dentists also were asked to recruit more athletes from their practices to participate in Special Olympics, to volunteer on behalf of Special Olympics, and to help identify a dental home for as many Special Olympics athletes as possible.

The AGD Foundation partnership with Special Olympics was announced at the November 2006 AGD Leadership Conference in Chicago with a presentation from a Special Olympics Ambassador who movingly shared her experiences about being an athlete and the impact that Special Olympics has made on her life.

In the future, Special Olympics will provide AGD members with continuing education opportunities for interested general dentists to better prepare themselves to address and respond to the health needs of persons with intellectual disabilities.

Grants

SmileLine, dentistry's first national hotline, was provided a grant to host more than 150 AGD members at a 12-hour event to answer questions from consumers during the AGD 2006 Annual Meeting.

The Texas Academy of General Dentistry (TAGD) received a grant in 2005 for the Lance Armstrong Foundation Health & Sports Expo Oral Cancer Screening. The TAGD's objective was to help create awareness of oral cancer, to promote early detection, and to educate the public on oral health complications during cancer therapy.

The Pennsylvania Academy of General Dentistry (PAGD) received a grant in 2005 to upgrade KidzGrinz, its Web site for children, their parents, educators, and advocates.

The Massachusetts Dental Society (MDS) received a grant in 2005 to distribute dental health information to new patients in hospital labor and delivery units. The information focused on newborn and the importance of taking care of babies' oral health at an early age.

Fund-Raising Events

2006 Silent Auction

Each year, the AGD Foundation Silent Auction provides a unique way for members and corporate sponsors to contribute to the AGD Foundation. The Silent Auction is now offered online in conjunction with the AGD Annual Meeting & Exhibits. Bidders from all over the world can participate, bid online, or simply preview the auction items

The AGD Foundation was established in 1972. It is a non-profit entity governed by an independent board of directors with representatives from the AGD and the corporate community, working together for the advancement of oral health.

The AGD Foundation funds educational and charitable initiatives dedicated to improving the oral health of the public and supporting the efforts of the general dentist.

You can help us continue to make a difference by contributing to the AGD Foundation. You can make contributions online or via fax or mail using a downloadable form at www.agd.org/foundation.
