

# The COMPLETE FACE: Botox Live Patient Training Course

10/14/23 | 8am - 5pm

## Course Description:

Designed to give you more than any other Botox course available, “The Complete Face,” is exactly that – COMPLETE. FACES provides the only Botox training that includes both upper and lower face cosmetic indications plus masseter and temporalis in one class. The Complete Face provides a rich educational program experience that saves you time and money by not requiring multiple levels of training. Reinvigorate your practice by adding Botox treatments with this Anatomically Based, Academically Rigorous and Scientifically Driven Seminar©.

## Course Objectives:

1. Identify specific areas of the aging face and features that can be improved with Botox treatment
2. Discuss indications for therapeutic treatment with botulinum toxins in the head and neck
3. Conduct a thorough patient consultation to evaluate the potential need for and assess the suitability of facial injectables
4. Avoid, recognize and manage adverse events
5. Document treatment – photo-documentation and written documentation

## Tuition:

Your tuition includes a folder of written materials and marketing tools, including examples of history, consent and policy forms, and a certificate of training upon completion of the course. ***It also includes 1 50u bottle of Botox, all materials to reconstitute, as well as 1 live patient for you to complete the hands-on clinical training with.***

## Course Speaker Bio:

Dr. Gigi Meinecke has been active in the field of facial injectables since 2004. In 2013 she established FACES Education, providing cosmetic and therapeutic injectable training to medical and dental professionals with a core focus on comprehensive facial anatomy. Her programs regularly integrate cadaver study with live patient injections. In addition to teaching nationally, Dr. Meinecke is instructor and the Course Director for the Facial Injectables Pre-doctoral program at the Boston University School of Dental Medicine. She also provides litigation support as an expert witness in the injectable domain. Her recent publications include “*Applications for Facial Injectables in Dentistry*,” “*Lower Face Influence on Total Facial Esthetics*,” and “*When and How to Say No to Facial Injectable Patients*.” She is the author of the book, “*Start and Grow Your Cosmetic Injectable Practice*.” Dr. Meinecke is a past President of the Maryland Academy of General Dentistry and currently serves on the Maryland State Dental Associations Legislative and Government Affairs Council. On a national level, she is past Chair of the ADA Council on Communications and serves as spokesperson for the AGD. She is a Fellow in the Academy of General Dentistry, the International College of Dentists and the American College of Dentists. Dr. Meinecke maintains a private practice limited to facial injectables in Potomac, Maryland.
