

# ONTARIO AGD

## 3 Day Restorative Dentistry Hands-On Mastertrack

TORONTO

APRIL 3-5

2020

FRIDAY TO SUNDAY

### DR. ROBERT A. LOWE, D.D.S.

Dr. Robert A. Lowe graduated magna cum laude from Loyola University School of Dentistry in 1982 and was a Clinical Professor in Restorative Dentistry until its closure in 1993. He maintains a private practice in Charlotte, North Carolina, lectures internationally, and publishes on aesthetic and restorative dentistry. Dr. Lowe is a member of Catapult Elite Speakers Bureau and has Fellowships in the AGD, ICD, ADI, ACD, IADFE, and ASDA. In 2004, he received the Gordon Christensen Outstanding Lecturers Award, and in 2005, Diplomat status on the American Board of Esthetic Dentistry. Dr. Lowe can be reached at 704-450-3321 or at boblowedds@aol.com.

## Practical Excellence in Restorative Dentistry: Integrating Modern Technologies with Proven Techniques

REGISTRATION: 8:00AM – 8:30AM | COURSE: 8:30AM – 4:00PM

In today's ever-changing economic environment, the dentist must continue to provide a quality service to the patient yet remain profitable. Consistent, predictable, clinical techniques to create quality aesthetic and functional dental restorations in a time efficient manner are of paramount importance for a healthy practice. Effective use of emerging technologies in dentistry will help to differentiate your practice in the marketplace.

In this technique filled seminar, Dr. Lowe will teach you the skills you need to refine your restorations to a level that will help you create consistent quality. New technologies and techniques will be discussed along with how implementation of these technologies can help the "bottom line" of your practice. A discussion regarding the latest dental materials and delivery modalities will help in treatment planning even the most difficult functional and aesthetically challenging cases.

#### Terms & Conditions

The Ontario Academy of General Dentistry reserves the right to cancel any mastertrack course at any time. In such cases a full refund will be given to each participant. Participants cancelling more than 90 days prior to the course will be refunded in full. Participants cancelling less than 90 days but more than 30 days prior to the course are entitled to a refund less a \$300.00 Administration fee. Participants who cancel less than 30 days prior to the course are not entitled to a refund. Costs incurred for travel and hotel accommodations remain the responsibility of each participant.

Ontario Academy of General Dentistry (Approval #219289)  
Academy of General Dentistry Approved PACE Program Provider. FAGD/  
MAGD Credit. Approval does not imply acceptance by a state or provincial  
board of dentistry or AGD endorsement. 01/01/2010 - 12/31/2021

Topics will include the following:

- Simplifying Placement of Direct Restorative Materials
  - Early Detection and Preparation for Minimally Invasive Operative Dentistry
  - Complex Anterior Composite Restorations: Diastema Closures, Composite Veneers, Matching Natural Teeth
  - Creative Matrix Options to Create Physiologic Restorative Profiles
  - Bulk Fill Options for Posterior Composites
- Bioactivity in Dentistry: Materials That Can “Repair” Teeth
- “World Class” Crown and Bridge Technique
  - Materials Selection and Preparation Design for Indirect Restorations
  - Tissue Management for Impression Making
  - Analog versus Digital Impressions
  - Luting Options for Indirect Restorations: Cementing versus Bonding
- The “Perio-Aesthetic Connection to Restorative Dentistry”
  - The Importance of Biologic Width
  - Diagnosis and Treatment of Biologic Width Encroachment
  - Spatial Repositioning of Teeth in the Aesthetic Zone

### **COURSE OBJECTIVES**

- Early Diagnosis of Dental Caries and Minimally Invasive Preparation: A New Paradigm to Help Maximize Tooth Longevity.
- How to use some of the latest composite and bioactive restorative materials to save time and create excellent clinical results.
- How to refine techniques to create “perfect” master impressions and have successful cementation of all types of aesthetic restorations.
- Unique options for indirect aesthetic restorations in anterior region.
- How to prepare teeth systematically for restorative success.

### **COURSE DESCRIPTION**

- Efficient Composite Layering For “Life-Like” Anterior Aesthetics
- Simplifying Posterior Composite Placement
- Creative Matrix Options for Direct Composite Dentistry
- Early detection, Minimally Invasive Tooth Preparation and “Bioactive” Restorative replacement
- Preparation Design for Restorative Options in Crown and Bridge
