

# MANAGING SPECIAL CARE & MEDICALLY COMPLEX PATIENTS WITH DR. MAI-LY DUONG

*Providing oral health care to individuals with disabilities requires modifications to the delivery of treatment and the types of treatment administered. This course targets dental health providers who strive to identify strategies that increase their ability to administer dental care to individuals with intellectual/developmental disabilities (ID/DD), acquired disabilities, and others with special healthcare needs.*

**Fri. July 24 - Sat. July 25, 2026  
8am -5pm daily**

**University of Cincinnati Health Campus  
3200 Burnet Avenue  
Cincinnati, OH 45229  
A Level South Auditorium  
Conference Room**

## Objectives:

- ✓ To describe common intellectual and developmental disabilities that individuals may present with in the dental office
- ✓ To identify strategies and modifications to dental treatment options and dental treatment administration for individuals with special needs
- ✓ To discuss common legal and ethical questions related to treating individuals with special healthcare needs
