STATEMENT OF COMPLIANCE DISCOURAGING TOBACCO AFFILIATION

The AGD Foundation Grant Program discourages grant applicants from accepting funds from manufacturers of tobacco products, their subsidiaries or parent companies. However, we are aware many tobacco companies are diversified, so it may be difficult to determine what exactly is tobacco money, and thus, it could be possible to inadvertently accept tobacco funding.

Tobacco industry funding includes the receipt of funds from a company that is engaged in or has affiliates engaged in the manufacture of tobacco and/or tobacco instruments (such as e-cigarettes, hookah, pipes or rolling papers) produced for human use; funds in the name of a tobacco brand, whether or not the brand name is used solely for tobacco products and instruments; funds from a body set up by the tobacco industry (such as a corporate foundation); or by one or more companies engaged in the manufacture of tobacco products and instruments.

It is not the intent of the AGD Foundation Grant Program to impose restrictions on your organization's funding sources. We do ask that grant applicants disclose if they knowingly accept funds from manufacturers of tobacco products, their subsidiaries or parent companies.

Please confirm

I certify that we do not and will not knowingly accept funding from nor have any affiliation or contractual relationship with any tobacco companies, their subsidiaries or parent companies.

I also certify that we do not and will not knowingly accept funding from any companies directly involved in the production, promotion or sale of electronic nicotine delivery systems.

The staff and board members affiliated with our grant application are prohibited from receiving any funding from or affiliating with the tobacco industry, their subsidiaries or parent companies or any companies directly involved in the production or promotion of electronic nicotine delivery systems.
