Continuing Dental Education Subject Code List
November 2022

010 Basic Science
• Cariology
• Anatomy
• Microbiology
• Pharmacotherapeutics
• Dental materials
• Physiology
• Immunology
• Emerging technology
• Product/technology Training

070 Endodontics
• Endodontic diagnosis
• Endodontic infections - microbiology and treatment of
• Non-surgical treatment
• Surgical treatment
• Traumatic injuries & emergencies
• Restorative aspects of endodontics
• Emerging technology
• Product/technology training

130 Electives
135 Laser therapy/electrosurgery
138 Dental photography
142 Medical emergency training and CPR
144 Table clinics
145 Forensic dentistry
148 Infection control
149 Multi-disciplinary topics
150 Health and nutrition
153 Psychosocial anxiety & fear in dentistry
154 Sports dentistry
155 Child abuse identification and reporting
156 Domestic violence
157 Substance abuse
158 Tobacco cessation
159 Prevention of medical errors
161 Dentinal hypersensitivity & treatment
166 Human trafficking

180 Occlusion
• Development of occlusion
• Occlusal classifications
• Occlusal functional concepts
• Occlusal dysfunction
• Occlusal therapy
• Emerging concepts and treatments
• Product/technology training

200 Orofacial Pain
• Orofacial pain pathophysiology
• Diagnosis and treatment
• Orofacial pain pharmacology
• Musculoskeletal orofacial pain
• Neuropathic orofacial pain
• Headache in orofacial pain
• Emerging diagnosis and therapies
• Product/technology training

250 Operative (restorative) Dentistry
• Caries detection, diagnosis and prevention
• Minimally invasive techniques and technology
• Preventive restorations
• Direct restorations
• Indirect restorations
• Preparation technology
• Emerging concepts and technology
• Product/technology training

310 Oral and Maxillofacial Surgery
• Exodontia
• Other dentoalveolar surgery
• Diagnosis and management of dental infections
• Diagnosis and management of dental trauma
• Orthognathic and TMJ Surgery
• Advanced surgical procedures
• Biopsies
• Emerging diagnosis or therapies
• Product/technology training

340 Anesthesia and Pain Management**
134 Chemical dependency/prescribing & disposal of Prescription drugs
• Local anesthesia
• Enteral techniques for conscience sedation – oral sedation
• Parenteral techniques for conscience sedation – IV sedation
• Inhalation techniques for conscience sedation –
• Combination techniques for conscience sedation
• Anxiolysis
• Pharmacotherapuetics of anesthesia and pain medications
• Management of complications of anesthesia
• Non-pharmacologic methods for pain control
• Prescription medication management
• Emerging anesthesia topics
• Product/technology training

370 Orthodontics
• Growth and development of occlusion
• Diagnosis and treatment planning
• Interceptive orthodontic therapy
• Functional orthodontic therapy
• Removable appliance therapy
• Surgical orthodontics
• Emerging therapies
• Product/technology training

430 Pediatric Dentistry
• Growth and development
• Prevention of caries, diet and nutrition
• Behavior management
• Space management and maintenance
• Pediatric special needs patient care
• Pediatric anesthesia and pain control
• Trauma management in young permanent and primary dentition
• Pulpal therapy in primary dentition
• Pediatric operative dentistry
• Emerging therapies
• Product/technology training

490 Periodontics
• Pathophysiology of periodontal disease
• Non-surgical therapeutic management of periodontal disease
• Surgical therapeutic management of periodontal disease
• Mucogingival management
• Occlusal force management
• Bone regeneration therapy
• Implant placement and management of peri- implant infections and complications
• Emerging therapies
• Product/technology training

550 Practice Management and Human Relations
• Practice management
• Human relations/Employment management
• Financial management
• Insurance management/coding
• Information technology, record safekeeping and transfer and risk management
• Marketing in dentistry – electronic and non-electronic
• Jurisprudence
555 Ethics in dentistry
558 Diversity inclusion/cultural competence
563 California dental practice act
564 NY ethics and jurisprudence
565 Documentation and risk management
566 HIPAA
567 Electronic health record and policies

610 Fixed Prosthodontics
• Single unit restorations
• Multi-unit restorations
• Full mouth reconstruction
• Periodontal considerations in fixed prosthodontics
• Emerging techniques and technology
• Product/technology training

670 Removable Prosthodontics
• Complete dentures
• Partial dentures
• Overdentures
• Support frameworks for dentures
• Attachments in removable prosthodontics
• Emerging technology or techniques
• Product/technology training

690 Implants
• Diagnosis and treatment planning for dental implants
• Site preparation
• Implant placement surgery
• Implant supported restorations
• Implant complications – surgical or restorative
• Implant maintenance
• Implant material science
• Emerging materials, science and therapies
• Product/technology training

730 Oral Medicine, Oral Diagnosis, Oral Pathology
• Imaging science and techniques
• Diagnosis, management and treatment of oral pathologies
• Analysis and interpretation of clinical laboratory tests
• Cancer screening, diagnosis and treatment modalities
• Health history and review of systems
• Biopsy techniques
• Emerging diagnostic or therapeutic techniques
• Product/technology training

750 Special Patient Care
• Hospital dentistry
• Geriatric dentistry
• Dentistry for patients with disabilities
• Dentistry for the medically compromised
• Emerging education or therapies
• Product/technology training

770 Self-Improvement

780 Esthetics/Cosmetic Dentistry
• Tooth whitening/bleaching
• The science of color
• Esthetic diagnosis and treatment of the dentition
• Esthetic diagnosis and treatment of intraoral soft tissues
• Tooth colored restorations
• Esthetic diagnosis and treatment of extra oral soft tissues
• Emerging esthetic diagnoses and treatments
• Product/technology training
